## EXPERIENCE

---

Route Academy

03/2023 - 08/2024

E-commerce

(Front-End Development)

I have extensive experience in creating interactive and innovative user interfaces with Angular. I focus on enhancing user experience and designing attractive, easy-to-use interfaces, prioritizing performance and efficiency.

(Back-End Development)

I specialize in building robust and flexible systems using .NET. My expertise includes developing APIs, managing databases, and implementing best practices to ensure security and high performance.

I am dedicated to transforming ideas into effective digital solutions that meet clients' needs and achieve their goals. If you are looking for a reliable technical partner who can deliver outstanding results, I am here to help.

Software Development

03/2020 - 07/2022

Professional Academy

(Front-End Development)

I have extensive experience in creating interactive and innovative user interfaces with Angular. I focus on enhancing user experience and designing attractive, easy-to-use interfaces, prioritizing performance and efficiency
